SEVENTH YEAR.

MAYSVILLE, KY., WEDNESDAY, AUGUST 3, 1898.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give anything "for nothing" free any more than a merchant can take over his customer's stock of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

NOT A SUIT

In our remarkable \$7 65 Suit Sale we were left unsold today the people known what values they get for the price. At the eleventh hour the community seems to have suddenly awakened to the fact and truth that never before in the history of Maysville's clothing trade \$7 65 bought such values. We judge this due to the number of customers that came in for these suits yesterday. To make this sale a record breaker, and for the benefit of the laggards, we have replenished the depleted \$7 65 counters with still greater values, and will continue the sale until the 15th of August. Look in our window display.

Your Choice for \$7 65 Cash When the Goods are Taken Away. Money Refunded if Upon Home Examination You are not Pleased.

The results in our Shoe Department, though not a year old, are gratifying to us and fully as much to our shoe patrons. "The most comfortable pair of shoes I've worn for years," is the universal expression of those that wear them. Our \$2, \$2 50 and \$3 Smith & Stoughton French Calf Common Sense Shoes are the best in the market. Every pair we sell is made for us and warranted to give satisfaction. Money refunded if they don't. Our high-class shoes, such as Vici Kid, Russian Calf, Patent Leather, Cordovan, &c., all of which are specially made for us by the Burt-Packard people, Brockton, Mass., fill the long felt wants in Maysville's shoe trade. We are daily receiving our fall stock in these lines. If your summer shoes are about worn out and you think it late to buy lightweight footwear we can fit you in the coming style of Fall Shoes. Respectfully,

The Building Committee of Washington Opera house could have gotten the building erected cheaper by giving the contract to Cincinnati parties, but they preferred to give the work to Maysville mechanics, even at a greater cost. In this view, it does look like the Maysville mechanics ought to show a little appreciation by "pulling together" and pushing the work.

The Second Battalion, Knights of St. John, comprising the membership of Covington, Newport, Dayton, Bellevue and Maysville, propose a visit to the city on Labor Day, Monday, September 5th. A big crowd is anticipated, and our merchants are kindly asked to aid in the sale of tickets, as they must reap considerable trade from the visitors.

Mr. Amos Means, whose critical illness was reported in yesterday's LEDGER, died at his home near Concord. He was a brother of Messrs. Quincy A. and Robert F. He was a good citizen, and in addition to a family he leaves scores of friends who will sincerely mourn his death. The funeral arrangements were not obtainable when THE LEDGER went to press.

Attention, Cadets! The St. Aloysius Gadsdell will meet at Knights of St. John Hall tonight 7:30. Full attendance is requested. Business of importance.

Electric Park. The cozy auditorium at this popular place was crowded again last evening with a delighted audience. The people of this city are quick to get out the "real place" to go and be amused, and then again it is always so cool at Electric Park that it is no wonder that the people flock out there each evening. Carman and Louise are making the biggest kind of a hit in their musical novelty, while Armstrong and Porter are getting much generous applause from their new and up-to-date jokes. Lew Seeker is as funny as ever and always has something new to say. Make up your mind to go out tonight. Ten cents pays your admission and round trip fare.

RUGGLES CAMPMEETING.

The Ledger's Correspondent Notes the Happenings at the Beautiful Campgrounds.

Special Correspondence Public Ledger.

RUGGLES CAMPMEETING, August 1st, 1898.

Editor Ledger: It is time somebody was telling somebody else that Ruggles Campmeeting is going on and that we, the campers, are having the grandest time you ever read about; that some twenty-three families from our beautiful little city are represented and tenting on the grounds. Then there are Mrs. West and her two charming daughters and the Misses Whittington from Bellevue, Dr. Harry Pangburn, Miss Lou Powling and Miss King from Maysville, Mrs. Dr. Hedlin from Lukeland, Ky., ten families from Tollerboro, six families from Mt. Carmel, and Mrs. Charles Degman from Springdale. The Kentucky Cottage is full up and every other cottage is taken.

The camp and surroundings look like a beautiful lawn with old giant trees scattered hither and thither through the smaller trees and shrubbery, and as we sit here and breathe the pure air that is wafted through this delightful woodland it makes one feel as if he were beginning life over again. The people of Maysville are foolish to go long distances to hunt for a place of recreation when right here so near them are the Ruggles Campgrounds that are being beautified more and more every year.

We have now been here, most of us, for nearly a week and it hardly seems two days, so pleasantly does the time pass by. Then the cost of living here is so trifling it would astonish you how cheap you can buy articles of living.

Prof. Crabbe and wife arrived on the grounds Thursday evening and he roomed around him a choir of singers which under his leadership were soon trained to sing together as if they had been practicing for weeks. The Professor and his wife are charming company and they add greatly to the pleasures of the camp.

Sunday morning came but the Rev. Collins of Louisville failed to be on hand. Yet we were not the least put out by we had with us Rev. Dr. Bradford, who has just finished his collegiate course in Boston, Mass., and the people of Maysville who have listened to his eloquence at home felt that no injustice was being done to the people here when they saw him step into the pulpit, and we were not disappointed. He took for his text, "Faith, Hope and Charity," and for more than one hour held his large congregation spellbound, their faces beaming with delight at the eloquence of this man of God. His words seem to come from deep down in his soul. None who heard him can ever forget the sermon.

The Campgrounds Eoworth League was organized on Saturday with the following officers:

President—J. W. Ramey, Catlettburg.

First Vice President—Miss Lella Parsons, Tollerboro.

Second Vice President—Miss Birdie Walsh, Maysville.

Third Vice President—Miss Nellie Jones, Tollerboro.

Fourth Vice President—Miss Annie West, Bellevue.

Secretary—Miss Gertrude Harding, Maysville.

Organist—Mr. Albert Harry, Epworth.

The organization takes in all the young people of the Campgrounds, and all Preschers are members of the cabinet.

Quite a number of Preschers have just arrived. Among them are Rev. A. Boring, D. D.; Rev. J. W. Perryman, Rev. G. N. Jolly, Rev. C. W. Sutton, Rev. J. A. College and Rev. H. Clay Northcott, the founder of Ruggles Campgrounds.

Maybe you think our children from Maysville don't enjoy romping over this twenty-five acres of woodland. They can scarcely stop to rest their minds. It is certainly a great treat to them.

Our meetings are well attended and are increasing in interest. We hope the few showers of rain will not deter the people of Maysville from coming out for they don't hurt us as the ground soon dries off.

We are expecting a very large turn out from Maysville on Sunday next. The threatening weather kept many away last Sunday but if they had come they would not have regretted it. M. J. W.

SPANIARDS NEED

Spanish Ministry Accedes to the Terms of This Country for a Cessation of the War.

UNOFFICIAL ADVICES ARE RECEIVED.

It is Thought at Washington That Active Hostilities Have Practically Come to an End.

According to Precedence an Armistice May Be Proclaimed Pending the Drafting of a Treaty of Peace Along Lines of Accepted Terms.

New York, Aug. 3.—A special cable to the Evening Journal from Madrid, published in a late edition of this paper, says:

"Spain accepts the principal conditions of peace as set forth by the American government and only the peace details are needed to cause all hostilities to cease."

"A peace delegation will be chosen at once to confer with the representatives of the United States. The peace conditions set forth by President McKinley were discussed at length Tuesday by Minister Sagasta, and at the conclusion it was given out officially that the terms of the United States would be accepted. There are one or two amendments in the proposition of the United States that Spain will ask to be made, and if, this is done, peace will be declared at once."

LONDON, Aug. 3.—The Madrid correspondent of the Daily Mail says:

"The government has accepted the principle of the American conditions, but the acceptance will not be made public until inquiries to Washington on matters of detail have been settled, thus rounding off the preliminary basis."

LONDON, Aug. 3.—The Rome correspondent of the Daily Chronicle says: "Spain, it is asserted here, has accepted the American terms, with unimportant reservations, and the peace preliminaries will be signed Saturday."

WASHINGTON, Aug. 3.—Shortly before midnight, Secretary Alger, as he left the White House after a conference with the president, said the administration had received official information that the Madrid government had accepted the terms of peace proposed by the United States.

Unofficially the president had been informed that the Spanish ministry had acceded to the terms of this country for a cessation of the war. The unofficial advice has reached the president in the form not only of press dispatches, but of private dispatches from confidential agents of the United States government.

While this government has strong reasons for believing that its terms of peace have been agreed to by the Madrid government, the president is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations for peace were in progress.

At a conference participated in by the president, Secretary Alger and Adj. Gen. Cortis at the department mansion Tuesday night a final decision was reached as to the constitution of the provisional corps for Porto Rico to be commanded by Gen. W. H. Taft. The regiments which are to comprise the corps were decided upon and will be designated in a general order to be issued probably Wednesday. Secretary Alger said that the corps would be en route to Porto Rico within a week.

Notwithstanding these warlike preparations, the belief in official circles Tuesday night among the administration was that active hostilities practically have been concluded. A prominent official of the administration said Tuesday night:

"The end is near, in my opinion. The information thus far received is unofficial and meager, but that it is accurate, in the main, we have no reason to doubt. In fact, we have reason to believe it is correct."

It is understood that the "reason" referred to is contained in the private advice received by the president and the private dispatches received by the United States has yet reached the French ambassador. Upon its receipt it will be transmitted to the president without delay.

In the event of Spain's acceptance of the terms proposed by this country, the first step probably will be towards an agreement to close active hostilities, pending the drafting of a treaty of peace along the lines of the accepted terms. According to precedents ordinarily regarded, an armistice would be proclaimed, and, in the circumstances, this would mean the practical close of the war.

It is pointed out, however, that several precedents have been set aside by this government in the conduct of the war and in the treatment of the Spaniards which led up to it. One notable instance is in which recognized diplomatic

precedents were swept away by the personal demand made by Secretary Day upon Minister De Lome to know whether the Spanish minister was the author of the letter reflecting upon the president. Another precedent was set when the president's government decided to return to Spain the prisoners of war taken with the surrender of Santiago.

Precedents have been disregarded in other instances by this government. In view of this fact, therefore, precedent may not govern absolutely in the conduct of the peace negotiations.

After the proclamation of an armistice, diplomatically the next step would be the designation by the president of the commissioners to represent the United States in the conduct of the final negotiations of peace. The terms proposed by this government provide for a joint commission to draft a peace treaty and to solve the difficulty relating to the future government of the Philippines. Again, according to the best accepted precedents, this joint commission would be composed of equal numbers. It has been suggested that the commission assemble in Paris, but as yet that is the merest conjecture. The commission might meet in either of the belligerent countries.

Pending the conclusion of the work of the commission, the probabilities are that the armies of both Spain and the United States will be kept in the field, their relative positions remaining unchanged during the diplomatic negotiations. Here again, however, precedent may be put aside by the United States; but it is regarded as likely that this country will not withdraw any of the troops from the field until a determination shall have been reached of all questions in issue before the commissioners.

AT BISMARK'S BIER.

The Emperor and Empress of Germany Visit the Remains of the Dead Kaiser—Chancellor—Deposits Wreaths.

FRIEDRICHSHAGEN, Aug. 3.—The emperor and empress arrived here Tuesday afternoon and were immediately driven to the Schloss, where services were held over the remains of Prince Bismarck.

Strangers were excluded from the service with the greatest rigor. Prince Herbert Bismarck conversed at length first with the emperor and then with the empress. After the arrival, after which he led their majesties through the gates into the Schloss. Then the gates were closed and closely guarded by sentinels for three quarters of an hour when their majesties came out at 6 o'clock.

It was a mournful procession that filed into the death chamber, Prince Herbert leading, with the emperor and empress following with Prince Herbert, after whom came the privileged members of the imperial suite and the wife and daughter of Dr. Schweinitzer and Baron Merck, in all about 30 persons.

Chairs were disposed around the catafalque and Pastor Westphal stood at the head of the coffin. When their majesties entered all knelt down around the coffin in silent prayer. Then a hymn was sung and Pastor Westphal delivered a discourse extolling the deeds of the deceased prince. Another hymn and the benediction closed the solemn ceremony, which lasted 20 minutes.

Their majesties deposited beautiful wreaths on the coffin and then, with the guidance of Prince Herbert, inspected the numerous floral tributes. The imperial party then left the Schloss in the same order as on its arrival, bidding adieu to the members of the family a tender farewell. The emperor again kissed Prince Herbert on both cheeks. The public, watching the departure, preserved a respectful silence, only waving hats and handkerchiefs as the train left for Potsdam. Amateur photographers were all about, and displayed the greatest activity.

The Bismarck Obsèques.

BERLIN, Aug. 3.—A sensation was created by the emperor Tuesday afternoon when the chancellor, commanding the Bismarck obsequies, which were to take place in front of the reichstag building and ordering instead that mourning services be held in order to modify a former order prohibiting the dispatch of mail to Spain or her dependencies so as to permit postal communication with Ponce, Porto Rico.

Revenue Cutters Greased. MONTREAL, Aug. 3.—The United States revenue cutter Grease, which came down the Lachine canal in two sections and was joined together again here, sailed Wednesday morning. She has taken on board coal enough to carry her to Boston, where she will receive her armament.

Postal Communication With Ponce.

WASHINGTON, Aug. 3.—Postmaster General Henry Smith Tuesday issued an order modifying a former order prohibiting the dispatch of mail to Spain or her dependencies so as to permit postal communication with Ponce, Porto Rico.

Town Entirely Destroyed.

TERMS OF PEACE.

Demands Which Spain Must Agree to Before Peace Shall Be Declared.

OFFICIAL STATEMENT BY McKINLEY.

The Freedom of Cuba, Cession of Porto Rico and One the Ladrones Islands to Be Included.

United States to Control City, Bay and Harbor of Manila Until Conclusion of Peace Treaty, Deciding Control of the Philippines.

WASHINGTON, Aug. 3.—The cabinet was in session an hour and ten minutes Tuesday. There was no important action taken so far as could be learned but it was decided to make public a statement of our terms of peace.

The following is an official statement given out by authority of the president Tuesday as to the terms of peace offered by the United States: In order to remove any misunderstanding in regard to the negotiations as to peace between the United States and Spain, it is deemed proper to say that the terms offered by the United States to Spain in the note handed to

EIGHT OF THE GENERALS WHO WILL PARTICIPATE IN THE PORTO RICAN CAMPAIGN.

The French ambassador on Saturday last in substance as follows:

The president does not now put forward any claim for pecuniary indemnity; but requires the relinquishment of all claim of sovereignty over or title to the island of Cuba, as well as the immediate evacuation by Spain of the island, the cession to the United States and immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies, and the like cession of an island, the cession to the United States will occupy and hold the city, bay and harbor of Manila, pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines. If these terms are accepted by Spain in their entirety it is stated that commissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated.

The United States cabinet half expected Spain to propose a counter proposition of terms; but as they did not conclude to do this but simply ask for more light on a certain point, they seem to hesitate on one point only, if the dispatches are correct, seems somewhat remarkable and while there may be a delay of a day or two in giving a further explanation on the particular point desired, in my opinion, if this is all, an early agreement can be easily reached.

The Wages Restored.

The pay roll for July last received less than \$50 per month, and those receiving greater salary five per cent. Only of the reduction, is restored. July salaries will be paid on this basis.

Boston, Aug. 3.—The British schooner Brandy, Lumbar, X. S., arrived at Providence Tuesday from San Juan, Porto Rico, having run the blockade. Capt. Emenos says: "The Americans will have a hard job taking San Juan. The soldiers have erected strong defenses all along the city—earthworks and rifle pits—and have prepared a plot which they fondly hope to put into execution should the Americans enter the city. No man has any fitness as Sunday-school teacher except that which the Lord gives, yet how many teachers there are who never inquire of the Lord from week to week. Let all such bear in mind that they are not only a hindrance to the work, but may be adding condemnation to themselves for their presumption.

If a man has anything at stake and lives long enough he will find that his true interests are with his own town or community and not with some other, and that if he has neglected his duty in this regard it will surely work to his disadvantage, as well as to that of those of his flesh and blood who come after him.
